

'Be a Shining Light'

How to make a Lighthouse

1. Cut a circle 14cms in diameter out of white or yellow paper/card to make the roof. Following template A, cut along the ----- line and fold the card where shown to make a conical top.
2. Cut out the lighthouse wall 25cms x 21cms as template B from white or yellow paper/card and fold where shown.
3. Either draw on to the outside of the lighthouse wall, in the middle band area marked, some bricks
Or cut out bricks using red paper and stick them on to the wall.
Or use a felt-tip pen/crayon to shade the middle band area.
4. Glue the walls of the lighthouse together to form a cylinder along the folded tabs.
5. Glue the top on to the cylinder.
6. Make a small torch (flashlight) stand and place the lighthouse on top of it, so that the torch is inside the hollow of the lighthouse. The light of the torch (flashlight) will shine through the little window in the tower. Switch off the lights of the room and enjoy the torch lighthouse.

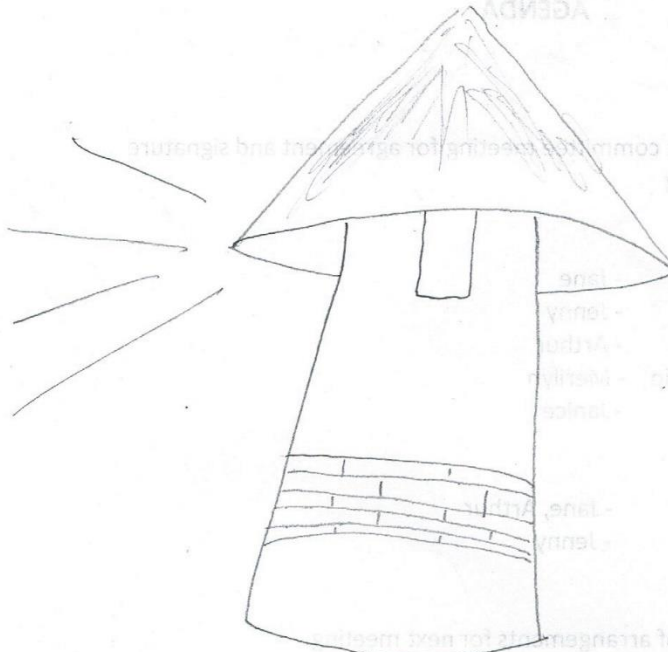

Extra Activity

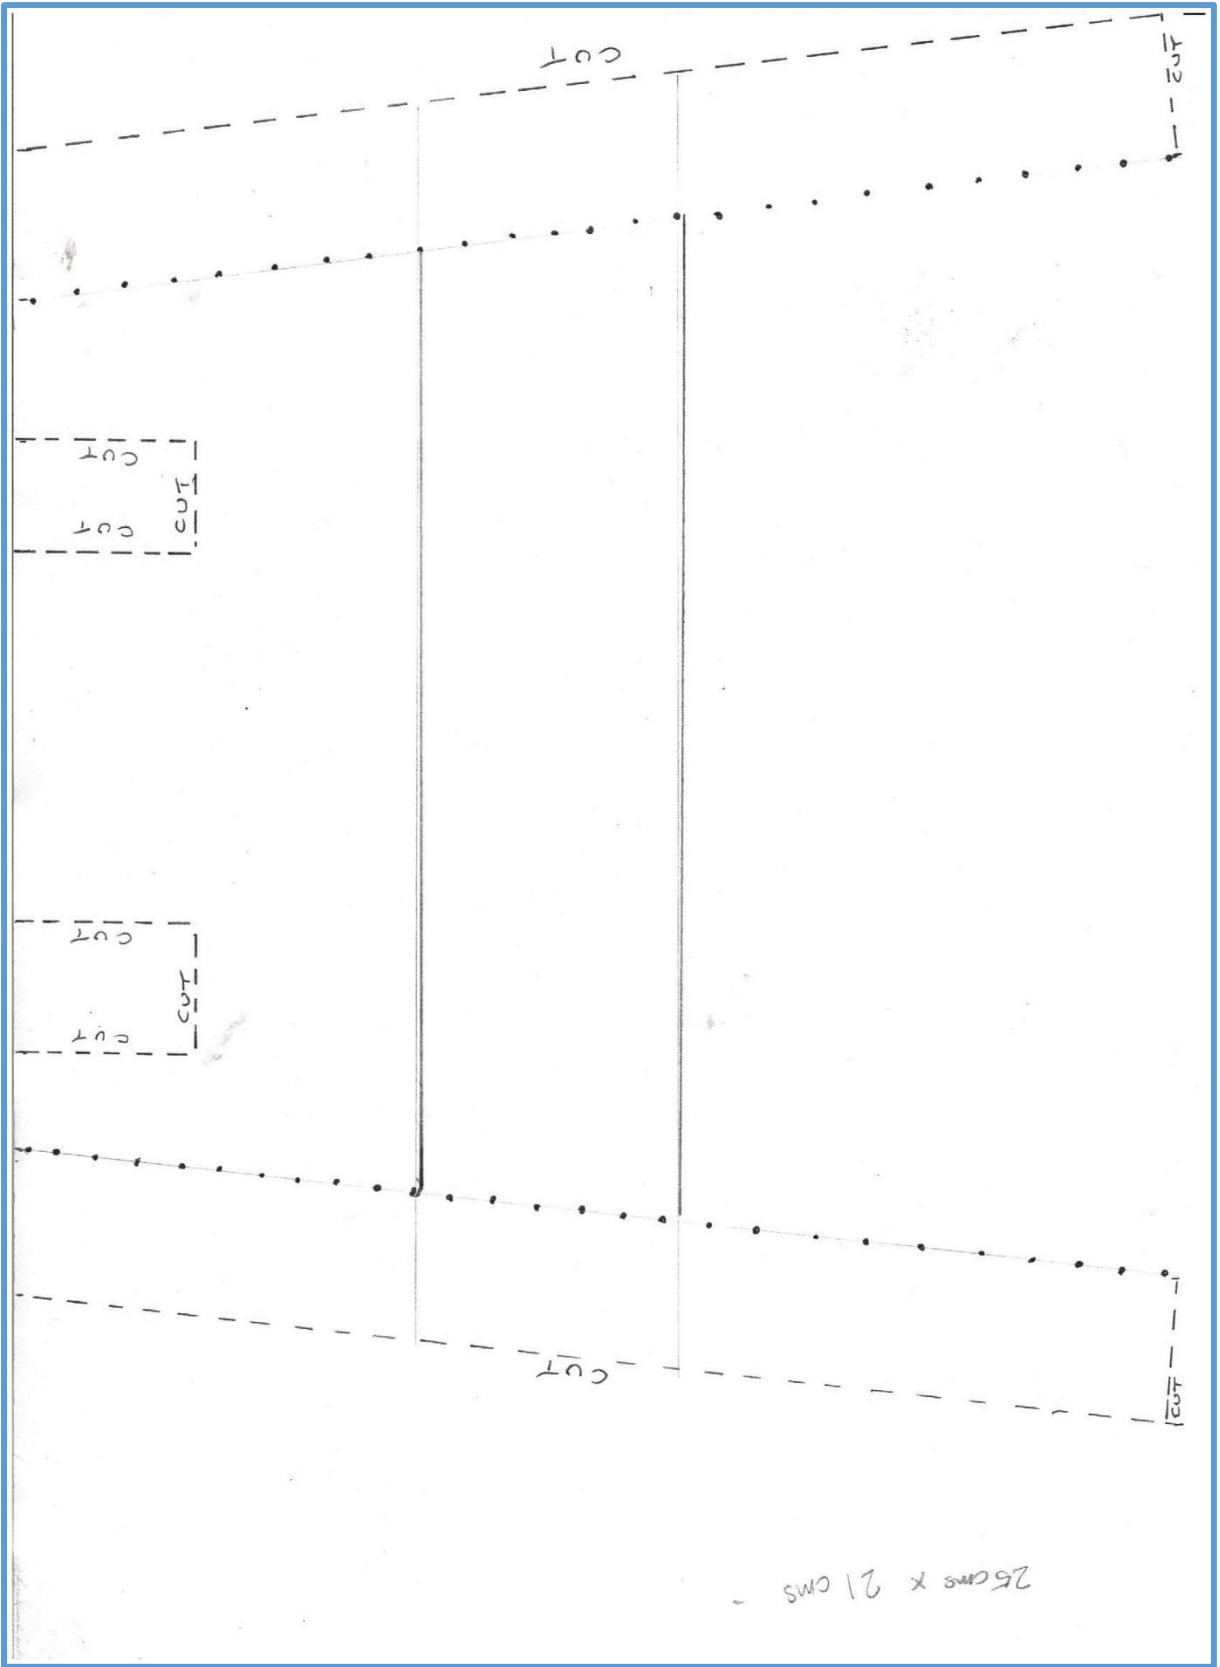

View RendCo.kids – My Lighthouse (Hand Motions) on YouTube and try them out at home.

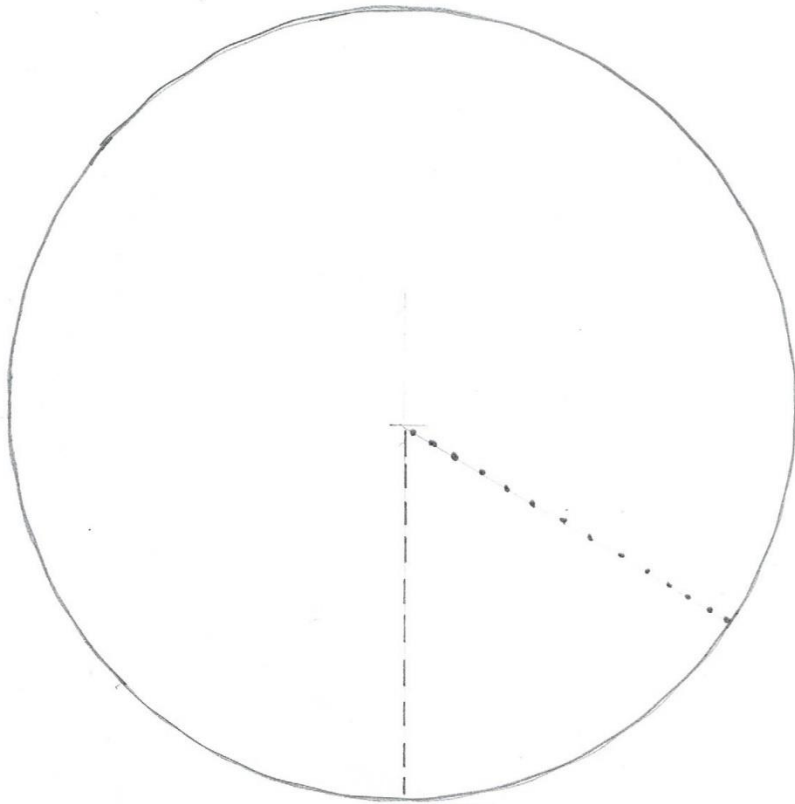

HAVE FUN!

Hobdara Committee Meeting
Thursday November 21st 2019
in the House Room at 7.00pm
