

Step #1:

Take your piece of paper and cut it into a perfect square.

An easy way to do this is fold the paper into a triangle, taking one corner and lining it up to the other side. This will leave excess on one side that, once cut, gives you a square!

Step #2:

Decorate both sides of the paper with whatever design you wish.

You can create a summer scene or just a fun design - like the colorful hearts we've created.

Step #3:

Fold the paper diagonally so it turns into a triangle and crease it lightly.

Repeat this for the opposite direction as well. You will then unfold and have a creased "X" on the page.

Step #4:

Cut along the creases about halfway to the middle of the paper. Be sure not to cut all the way.

How to make a paper windmill

Step #5:

Bend each corner into the middle. Make sure to bend and not fold.

Use coloured sticky "dots" to fix the middle vanes in place

Step #6

Once all 4 corners are in the middle push the push pin through them all as well as the straw or eraser. Be careful not to hurt yourself with the pin!
